

**Journey Towards Care For Our Home**  
**Five Years After Laudato Si**

**October 4<sup>th</sup>, Feast of St. Francis**

Laudato Si calls for an ecological conversion where relationship with Christ is evident in the carrying out of care for the earth. It has fed our spirits these five years and still has great inspiration to lead us. But Pope Francis has now written a new encyclical, “Journey Towards Care For Our Common Home”. The English translation has just been published.

As the Season of Creation comes to an end this Sunday let's pray once more the Cantic of Creation <https://youtu.be/kpPSZkmr Js> and then let's begin to read this new encyclical slowly and reflectively, once again listening to Pope Francis' lead in what we all must do together.
