

	<p style="text-align: center;">Slides for the ROLL OUT PLAN FOR SUSTAINABLE CATHOLIC COMMUNITIES In the spirit of Integral Ecology of <i>Laudato Si</i> Through the leadership of the Dicastery Promoting Integral Human Development (DPIHD) Presented by Sr. Sheila Kinsey, FCJM (Wheaton Franciscan) Executive Co-Secretary of the JPIC Commission of USG-UISG Coordinator of Sowing Hope for the Planet December 14, 2020</p>
1	<p>Laudato Si’ Roll out Plan for Sustainable Catholic Communities To work in the Spirit of Laudato Si’ with the Dicastery Promoting Integral Human Development The challenge of the presentation to LEAVE no one behind and to not lose the pathfinders</p>
2	Text
3	Text
4	Make specific reference to the areas in red
5	Notice how we are missing the mark
6	Notice slight variations before the industrial revolution and the advancement of temperatures after the beginning of the industrial period
7	<p>Information is not enough to make changes we need values to be inspiring and the will to do it Most UN statements are encouraging but not binding Pope Francis uses these encouraging statements in his writing. With Laudato Si’ spirituality has entered the realm of dialogue regarding the environment USA has John Kerry as an envoy for the environment</p>
8	<ol style="list-style-type: none"> 1. Process is more important than a single event 2. Look for ways to work together. Be careful not to politicize the language 3. Concrete, significant actions 4. Energy and dynamic of the whole. Working together, enriching relationships is greater than a part or even the sum of the parts 5. If we integrate all of these areas for change we can reach the tipping point of 3.5% which took down the Berlin Wall and 21% to 25% for the necessary systemic change to attract others to a viable option to more forward—and establish a process for system change
9	<p>I would like to take you on the emerging journey, the path that is being made by walking How religious got started in Rome Recognition for the plan Where we are in developing the plan and the listening that continues to take place The wider involvement taking place</p>
10	<p>Definition of JPIC for the JPIC Commission of USG-UISG. We were asked to submit a proposed plan to the UISG board for Sowing Hope for the Planet</p>
11	<p>The plan is supported by both International Religious Congregations for the leaders of men and women religious about 2000 congregations</p>
12	<p>The proposal to continue the plan to was endorsed by acclamation at the plenary gathering of over 850 religious women leaders. The leaders had a presentation of the work preceding the meeting through a 17 minute video of what the religious were already doing around the world.</p>
13	<p>Sowing for the Planet attracted the attention of the male religious. Fr. Joshtrum Kureethadam, Coordinator of the Sector on “Ecology and Creation” of the DPIHD and Sr. Sheila were among the presenters. Although there was a clear vote of support by individual congregations there was not enough support for an endorsement by USG. We continue to involve the men’s congregation on an individual basis of interest.</p>
14	<p>Vision Statement for Sowing Hope for the Planet adopted by UISG and continues to provide ongoing guidance</p>

15	Dynamic interactive website operative in 6 languages
16	Public commitments attending to the needs of the Earth and the Poor. Organized with the UISG Constellation set-up. Having public statements is prophetic.
17	There will be a report on the commitments at the next UISG plenary. Here is a sample of the USA which focused on immigration. The map shows another page for African countries. The constellations are organized by language and regional areas. All are in English with the additional language of the representative countries.
18	Timely information is available for different events by clicking on the icons.
19	It is important that we work together and share our resources. This is a library of resources which are available by clicking the various areas for results. There are suggestions for international days which are highlighted in the Sowing Hope for the Planet Newsletter
20	Videos which we have done. Now others are offering to videos for specific events by knowing what comes ahead for specific events
21	Contact page. Please do contact us to receive the newsletter and to make resource contributions. You can also leave comments.
22	Ongoing education takes place through webinars. These are enriching processes and we are informed with new developments and of what is happening around the world. We find ways to support one another. There is energy in working together. Pictured here are the Sisters of the Adorers of the Blood of Christ in Pa where they and the local community were advocating against a pipeline that was to go through their land. We accompanied them in prayer. The picture in the upper right is of French Sisters. That constellation had given 45 letters from their religious leaders regarding what they were doing with <i>Laudato Si'</i>
23	Here is the work of the Holy Cross Sisters as we begin to see the interconnections of the Roll out plan in January of 2020. Work on the environment, with the poor, established a business, simpler lifestyle in north through consciousness of carbon footprint, education for change, spirituality realized in everyday life and networking north and south and within lock community.
24	In the celebration of the Season of Creation webinar, the constellation of the United States was a participant and the delegates asked the participants to pray for their work with migration. This was included in their constellation commitment. It was interesting to see the global perspective on migration for the 4 constellations visited for that webinar—West Africa, Brazil, Mexico and the United States.
25	See the potential of connections—worldwide endeavor and the logistics to consider
26	As we have been working on Sowing Hope for the Planet with Fr. Josh our relationship has broadened and deepened
27	Accelerates the Action (Document is available on the website for Sowing Hope for the Planet)
28	Summary of vision to this time
29	Share the resource we have been developing for religious congregations
30-58	Paper summarizes the proposed process
59	Six congregations plans to be shared
60	Claretian Family includes all the branches. Will survey a few members in all of the strategic ministries for planning
61	Holy Cross Family includes all of the branches. They have been committed since 2009 and have shared valuable experiences
62	The example of the Holy Cross Sisters with the Carbon Footprint considered many aspects
63	The Columbian Missionaries have a Creation Covenant and had several sessions to develop areas of the covenant
64	Brothers of St. John of God Live <i>Laudato Si'</i> . Have a 6 year plan to embed ecology into daily living and contemplation

65	Ursulines of Jesus have developed Guidelines for the general, community and personal level. Suggestions are given to actualize the plan. Positive evaluation by the community.
66	Servants of our Lady of Fatima trained their local superiors. From local contributions developed a 6 year plan.
67	Urgency of message stressed by Pope Francis
68	Going into action. Sharing developments as we gain clarity.
69	Sample page of the Integral Ecology Action Framework . This is a request for research and the sharing of resources related to the proposal for religious to actualize the <i>Laudato Si</i> Roll out Plan. Anyone who is interested please submit your name in the contact section of Sowing Hope for the Planet. Complete tool is available.
70	Sample of an Evaluation Tool. Let us know what you think of this. Complete tool is available.
71	Sowing Hope for the Planet Webinars January 21, April 15 and June 10, 2021. Please use and contribute to the resource area. You can also subscribe to our newsletter.
72	Sr. Sheila is on the COVID-19 Commission serving on the Integral Ecology Task Force. The Roll out Plan is a part of the Task Force and will be promoted beyond the life of the commission.
73	Thanks so much for your participation and interested in action to address the ecological crisis. Thanks to Fr. Josh for the scientific slides and to Br Alberto for the slides on the process for religious congregations.
