

Living Laudato Si Goals Each Day

<p>Sunday August 8</p>		<p>Did you know that fast moving water just above your ankles can knock you off your feet; flash floods can tear out trees, destroy buildings and bridges. Be respectful of mother nature.</p>
<p>Monday August 9</p>		<p>In developing countries 80% of sicknesses are due to drinking and washing with contaminated water. Advocate for clean water initiatives in developing countries.</p>
<p>Tuesday August 10</p>		<p>A single pound of beef takes, on average, 1800 gallons of water to produce. 98% goes to watering the grass, forage and feed that cattle consume over their lifetime. Consider a meatless meal once a week as a way of conserving water.</p>
<p>Wednesday August 11</p>		<p>Tips for conserving water: do not let water run while brushing teeth; take a shorter shower rather than a bath; keep drinking water in fridge rather than letting faucet run; do only full loads of laundry. Click for more tips.</p>
<p>Thursday August 12</p>		<p>Learn about the water footprint. Do you know how much water was used to grow your food and produce your clothes and the things you buy? Learn at: www.waterfootprint.org</p>
<p>Friday August 13</p>		<p>“All praise be yours, My lord, through Sister Water, so useful, lowly, precious and pure.” St Francis Watch Water Blessing</p>
<p>Saturday August 14</p>		<p>Consider a donation to the “Water With Blessings” project founded by Sr. Lorraine Lauter, osu. This project equips, empowers, entrusts mothers to become Water Women, agents of change in their communities. Click</p>
